

In reply refer to:
SP3-235

10 May 1963

Contracting Officer
Contract AF 33(600)-37230
File No. RT-100

Dear Sir:

By endorsement to [redacted] letter SP-637 dated November 8, 1960, addressed to "Wendell" (your file COR-0998), the Contracting Officer authorized the transfer of certain items of hardware (listed on nine (9) pages attached to said letter) from Contract AF 33(600)-37230 to another contract not within the purview of the addressee and relieved Contractor of accountability therefor.

50X1

Investigation has disclosed that the item listed on the fifth page of the enclosures to the above mentioned letter as "USE No. 110" should have read "USE No. 112".

In the name of and upon behalf of Lockheed Aircraft Corporation this is to certify, to the best of my knowledge and belief that:

(i) The items of hardware were transferred from Contract AF 33(600)-37230 as Government-furnished property at no cost to another contract, not within the purview of the addressee and

(ii) No costs for the items of hardware received by the transferee contract were included in price proposals under such contract and, accordingly, no credit for fixed fee is due the Government under such contract for the items so transferred.

LOCKHEED AIRCRAFT CORPORATION
